

# Rules Fondation Bruckner

At Fondation Bruckner, our mission is to support art practices in ceramics through the rental of studio spaces as well as ceramic firings for both individuals and institutions.

Within 15 minutes walk from EoFA, or 10 minutes on public transportation, Fondation Bruckner studios are located in a green space, which offers a stimulating place for the creative process.

There are three studios each measuring 20m<sup>2</sup>. These spaces are equipped with the following tools: wedging board, glazing booth, hoist, workbench, extruder, potter's wheel are some tools available to residents. Firings are done on location in our various electric kilns or in a large gas kiln measuring 1m<sup>3</sup> (1000L).

The studios have access to wifi and are equipped with a small library, shared kitchen, and a shower.

The studios can be rented to produce works for exhibition, for research and experimentation, or for developing a large scale project. Both professionals and amateurs can benefit from these spaces as long as they are self-sufficient. The foundation does not offer technical support.

Studio rental can be arranged for periods of one day up to a maximum of six consecutive months.

## RATES

Day rate: CHF 30.- (approx. 30 € depending on exchange)

Weekly: CHF 130.- (approx. 130 € depending on exchange)

Monthly: CHF 450.- (approx. 450 € depending on exchange)

Please note: studio rental does not include firings, nor does it include raw materials, these are the responsibility of the residents.

Only residents who are proficient at using kilns are permitted access to the kilns at Fondation Bruckner studios. This is also subject to scheduling availability of the kilns. Please note: firings are not included in the rental prices of the studios.

Fondation Bruckner also offers firing services for individuals and institutions who wish to bring their finished pieces. The firings are managed by the studio technician. We offer reduced rates to emerging ceramic artists (less than five years since receiving their diplomas).

The residents maintain priority for the firings.
